

Environmental Policy

It is the policy of Lansdowne Chemicals, to manage its activities in ways, which reduce their environmental impact to a practicable minimum.

The company will:

- As a minimum, comply with relevant environmental legislation requirements for environmental protection and fulfil any other environmental commitments
- Be committed to continual improvement of its environmental performance, by way of setting clear environmental objectives and regularly monitoring progress against them
- Educate and train employees in environmental issues and the environmental effects of their activities
- To encourage environmental standards from all suppliers and contractors

In order to comply with the Company's policy, Lansdowne Chemicals will:

- Develop and operate an appropriate Environmental Management System and achieve externally verified certification of the system to ISO14001
- Carry out its manufacturing practices having regard to both the local environment and the operations involved
